

Submitter:

Jessica Lawrence

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To whom it may concern:

The impact that requiring in-person voting on Election Day would have a catastrophic impact on the people that voting seems to impact the most— the elderly, the disabled, and the working class. If voting truly is meant for every citizen, then it needs to remain accessible for every citizen and this means mail in ballots for folks that cannot physically make it to a polling station.
