

Submitter:	Cheryl Robison
On Behalf Of:	All Oregonians
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

I've been voting since 1969. I remember having to wait in long lines to vote, or missing the closing time because my boss would not allow me time off, or childcare issues. When vote by mail began it was great. Now I could vote in every election, had time to research issues, did not have to put in for vacation time to vote. Not sure of the stats, but I would expect the % of voters increased. Call me crazy, but I'd think that's a great thing for our state. Sounds like perhaps Trump wants less people to vote. We in Oregon don't have the fraud issues of others. The number of people who were misclassified and actually voted was 2 voters. I do not think 2 fraud votes will help Trump win Oregon.

We have a system that works, that has been a model for other states. I do not support this change. I think there are more important issues for Salem to be working on.

Thankyou.
