As an Oregon resident and voter, I am adamantly opposed to SB210. Making voting in-person the standard and removing or reducing voting by mail is a blatant attempt to suppress the vote.

There has been no credible proof of fraud in any of our elections and Oregon has consistently had higher turnouts during elections ever since instating vote by mail in 1998, close to 3 decades ago. It is shameful that this nonsense has even made it to committee.

I will 100% throw more support behind anyone who is opposing SB210 and any other voter suppression agenda.
