SB210

The proposed bill is a blatant attempt to disenfranchise Oregon voters, playing on emotions from the false narrative that vote by mail is rife with fraud and abuse. There have been numerous investigations that have repeatedly come to the conclusion that voting by mail is safe, secure, and results in a significantly increased voter participation. That increased participation is exactly why backers of this bill want to hamstring a long standing successful Oregon voting process, one that has worked since 1981. Mail in voting is not broken, there is nothing to fix except the lies and disinformation of the conservative agenda.
