Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hi there-- I'm writing in my support for SB210. I'm a naturalized citizen and I come from a family who proudly has a long line of military service members, starting with my dad who served in the Navy for 31 years. In asking about my allegiance, my dad asked me which country I would fight for. It was a no-brainer...the USA. And with that, he approved my quest to become a citizen. The right to vote is so important because each vote determines the path and destiny of our country, from our local community to the national level. The value of the vote should not be cheapened by those who are uncommitted to this country...who have no allegiance to this country and who do not believe in and adhere to our Constitution and our laws. For all the reasons why we live in this country and support it through our taxes and life decisions, it is not too much of a sacrifice nor a stretch of effort for citizens to have a voter ID card and to vote in person on ONLY Election Day. Please vote for SB210 to strengthen our voting process and to ensure the value of our vote, and so that we can be confident on the voting results. Thank you!
