Measure, Appointment or Topic: SB210

Dear members of the Senate Committee on Rules,

Our existing voting process works and does not need to be changed. The proposed bill attempts to limit access to the ballot and is a politically motivated strategy intended to reduce turnout, which would benefit one party. The purpose of for holding democratic elections is for people to have a voice and a vote. Oregon has established a reliable and secure process for ensuring that election fraud does not occur while at the same time making voting accessible to all. I urge you to not pursue this bill any further, as it goes counter to the values inherent in participatory democracy. Thank you for your service.

Sincerely,  
David Saez
