

Submitter:

Sherry Sola

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please don't make it harder to make your vote heard. You're only limiting voters and voter turnout and making it more challenging for the average household to participate in the democratic process. I personally appreciate the non pressured, more comfortable experience of being able to fill out my selections in the comfort of my home, on my time, allowing me to make the most educated and informed choice possible and not to fill rushed. What if I have to work the day or days the booths are open? I am also diabetic, if forced to wait in long lines for a booth and once in take my usual 2-3 hours of educating myself on the measures and people running for particular offices then I'm surely to be running with low blood sugars at which time my capacity to make the best decisions would be affected. Please keep our democratic process thriving and encouraging for folks of all classes and circumstances so families can feel encouraged to participate.

Sherry
