SB210

I get that some people are concerned about non-citizens voting but FIND A BETTER WAY to insure that only citizens vote.

Rather than automatically registering people, make DMV ask if someone is a citizen. If they told people that non-citizens are not eligible to vote and there are steep penalties for voting if you are not eligible then I'm positive no one who is ineligible is going to vote.

Trust me, as an immigrant who is now an American citizen, when I had a green card I wouldn't do anything to jeopardize it.

If you force people to vote in person you must also force businesses to give employees the day off. I worked for an employer who would not give me the day off to vote and I couldn't vote many times before I moved to Oregon and mail-in voting was an option.

As a registered Republican I am begging you, please stop this bill.
