Measure, Appointment or Topic: SB210

To whom it May Concern,

As an Oregonian for over 65 years I have lived through in person election and mail in voting. Over the years there has been much concern over election processes and the safety of our elections for accuracy. I support in person voting with proof of citizenship in Oregon. Let's take the concerns out by having in person elections. Those that need mail in can request this.

Thank you for supporting in Person elections.
