Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is the most accessible means of democracy that this country has to offer. Taking this away would disenfranchise thousands of Oregonians who are not able to vote in person due to their job, financial situation, access to transportation, access to childcare, disability, etc. There is no need to fix a system that isn't broken, and I know that taking away voting rights is not what this state stands for. Thank you.
