Measure, Appointment or Topic: SB1187

I strongly support SB 1187. The major companies who are responsible for polluting our environment should be held accountable for the damages they are causing to our state and the health of Oregonians. These costs should not be born by us taxpayers, but by the companies who have known their actions are a cause of climate change and continue to pollute our environment. I urge you to do all you can to see SB 1187 becomes the law in Oregon.
