Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello, I am writing to oppose SB 210. Voting in-person is a barrier to citizens who work during regular polling hours, who provide care for dependent family members, who have mobility issues, who need adaptive visual aids such as stand or electronic magnifiers, and who may live at a distance from a polling place, such as in a rural county. Oregon has led the way with vote-by-mail and should continue to be an example of improved voting access for the rest of the nation.
