Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has a voting system that WORKS for Oregonians. There's a whole lot of talk about government efficiency right now. Completely upending a voting system that is working just fine seems like a massive waste of resources. Why spend time and money doing something that makes civic engagement less accessible for Oregonians? Voting is a RIGHT, not a privilege. People with disabilities deserve to vote. People who can't get the time off work on election day deserve to vote. We are Oregonians and we do things our way. Don't cave to pressure from a president who has no idea who we are, how we live, and how we do things in Oregon.
