

Submitter: Linda Condon

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Why get rid of a system that save us all time and money? Only if there is evidence of significant fraud casued by mail voting would I see any reaason to consider this bill. But there are risks of fraud with in person voting too (voting machine fraud, lack of volunteers, dishonest volunteers, bad actors at polling places,etc. ) Why spend a vast amount of effort to change a system that seems to be working, when there are so many other issues we want the Legislature to address! We elect you to make our lives better, not harder.
