Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose the measure to change the current laws in Oregon for mail in voting. I am an 81-year-old senior with a disability. It would be extremely difficult for me to have to vote in person. The majority of my friends and community are in a similar situation. I believe we would have a significant decline in voter turnout if we require in person voting for all registered voters. I can't see any positive outcome from changing the current law that allows registered voters to submit mail in ballots.
