SB210

I oppose this bill as it attempts to fix a nonexistent problem. Vote by mail is efficient and encourages participation in this essential democratic process. In person voting would depress voter participation as people would be compelled to take off work in order to vote. We should be lessening the friction to vote not putting impediments in the way.

Fraud is virtually unheard of and is handled with appropriate safeguards. This bill is trying to fix a nonexistent problem. Please let this bill die and focus instead on real problems that really need fixing.
