Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I'd like to express my opposition to this bill. I am a big supporter of mail in voting. As a busy mom of three with a full time job, mail in voting allows me to take my mine, read through the voter guide with ease and do it at a time that works for my busy schedule and involve my kids in the process as they see me filling it out. I'm proud that Oregon has such a high voter turn out and I greatly worry that mandating in person voting will end up disenfranchising many people, like elderly, other busy moms, healthcare and other required industry workers that work while polls would be open and the effect that bad weather would have on voter turn out which is a known contributor. If it's not broken, why put rules into place to "fix" it? It's working, no need for change.

Thank you.
