Katie Daneshvar

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a busy mom, I really appreciate the standard Oregon currently has to mail my ballot directly to me. I can coordinate on my time when to drop off my ballot and I am grateful that I have plenty of time to research all of the issues thoroughly. I also do not waste my time standing in a line! I am concerned that switching the default to in-person voting will deter some people from participating in elections. We should be figuring out ways to make voting easier for citizens, not adding more barriers.
