Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The current voting system used in Oregon has worked very well and I want it to continue. It creates a hardship for people to have to vote in person. So many industries require employees to work on site with a limited lunch hour and I remember standing in line for a very long time decades ago. I doubt very many precincts have the facilities and staff to support in person voting. I shouldn't speak for the more rural areas but I would think the travel time/cost to get to their precinct could cause unnecessary hardship. Leave our system alone.
