

Submitter:

Capt Brad Fry

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I have been working with Ed Solomon performing election analytics for 4 years. I have also noted many times the work of Jeff Odonell in his work on Oregon which starts on page 256 in "Fingerprints of Fraud". The only reason our analytics work is due to the centralized counts performed on our ballots. Things dont look right. This bill fixes the major points of Fraud. Thank you
