I work for a living.

If you want to take away our voting rights, then this is sure the way to do so.

I cannot afford to take off work to vote.

This is voter suppression.

If you want to make every voting day a mandatory paid holiday, then we can talk.

This is a terrible idea, and it will disenfranchise and marginalize many people who are otherwise unable to make it to a polling place.

But that's the point isn't it? That's the part the sponsors of this bill don't want to say out loud.

I oppose SB 210.

This is designed to prevent people from voting and participating in democracy.

Why is it always the same party trying to stop people from having a voice?
