

Submitter: Jack Hawkins

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As someone who works odd night hours, I oppose the repeal of vote-by-mail and the mandatory voting in-person. This would be an incredible inconvenience to me, something I know a portion of the government wants as a method of voter suppression. I have rights as a US Native American born on United States soil, which includes voting for my local and national representatives and measures. Voting should not, in any way, be made inconvenient to nearly impossible to its citizens (born or immigrated) through motions like this. Do not repeal this and allow us to vote by mail.
