Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This assault on democracy (arbitrarily limiting and restricting the right to vote) is unacceptable. Mail in voting is a tried and true method to get the vote out and improve participation amongst the citizens, many of which are rural. There is no day off for election day, so this allows people to spend their time to consider the issues and make the time to vote. They also can show their children the importance of democracy and discuss important state issues. It is still possible to vote at polls on election day! Why is this state senator trying to take away our freedoms and our rights? Why does he hate our freedoms?
