As a longtime educator who holds several jobs, vote by mail is imminently more convenient for me than in-person voting, far increases the odds that I would be able to vote in the first place, and allows me ample time to consider and research the voting measures and candidate options. I am a more informed and involved citizen as a result. I also trust vote by mail because I am sent tracking texts, which also helps add to my peace of mind. Please do not eliminate vote-by-mail in Oregon!
