Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I find voting by mail to be the most convenient way to be able to vote consistently no matter what may be happening in my life, so I oppose any bill that would try to eliminate it. I also was able to make sure my mom and mother-in-law were able to vote even when it became hard for them to leave their houses. Making people stand in line for potentially hours is not an equitable way to make sure everyone votes.
