

Submitter:

George Pantely

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon has a system of mail in voting that is secure and has worked extremely well for many years. This bill will "worsen" a process that has served the state well. This is an effort that will be costly and achieve no good purpose other than to make voting more difficult for registered voters in Oregon. I urge the committee to vote against this bill.
