Measure, Appointment or Topic:

SB210

As the former resident of a state that did not allow vote by mail except for in absentee ballot cases, I strongly oppose this change. Oregon's vote by mail system works, is secure and convenient and allows voters to be well informed with the ability to research each issue and candidate in real-time while completing a ballot. If in-person voting is required this could create barriers to voting that we do not need. Thank you for your consideration.
