

Submitter: Rebekah Engle

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Dear Oregon Senators,

I am writing to ask you to please oppose this terrible bill (SB 210). Not only would this make voting more difficult for many Oregon citizens, including the elderly and disabled, it would also be a hardship for anyone who works or has at home duties to attend to. Asking people to stand around in the rain after a long work day or spend hours waiting in lines at voting booths is a step backwards for all Oregonians. We should be advocating for more voting participation and this will not move the needle in that direction.

I ask you to do what is best for Oregon and maintain our current system which allows Oregonians freedom and choice in when and where they turn in their ballots, while giving them ample time to make the important decisions for the people of our state.

Sincerely,
Rebekah Engle
