Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210. Vote by mail has been working well for Oregonians for years. It's so easy and convenient for me to vote, and the texts that my county shares when my ballot has been mailed, received, confirmed and tallied help me have confidence in the security of the system. This bill promotes voter suppression and is a solution in search of a problem - a problem that does not exist.
