On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I submit my testimony in opposition to SB 201. This bill would make it harder for all registered voters to vote. As a state we have won awards as a state for our system that empowers people to vote. We often have the highest turnout of any state in our country.

I for one, due to my disability can not make it to an inperson voting location. I like having the ability to sit down with my voters phamphlet and working on my ballat.

I also want to note that county clerks have looked into non-citizens voting in our state and the records show that the number of in eligible voters are very low.

Sincerely,

Charlene McCreight
