

To Whom it May Concern.

I am writing today in opposition to ending mail in voting on the great state of Oregon as proposed on Bill 210.

As one of the many working class citizens of the Great State of Oregon. Mail in voting makes it easy and convenient for someone like I, who has mobility issues to be able to cast my vote and have my voice be heard on the issues and political agendas I feel strongly towards.

Please do not let Bill 210 come to pass as it would take away the ability to vote and voices of myself and many people with mobility issues away.

Sincerely,

Alison Levesque-Gaston  
Resident of Klamath County Oregon
