Marissa Mingus

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

If the purpose of government is to benefit the people, the process of taking part of said government by way of voting access should remain as barrier free as possible. Many people don't have the time to take off work to vote, don't have the funds to get their valid ID replaced if lost, and they doesn't even consider persons who vote that have mobility or vehicle concerns. Vote no on this bill.
