

Submitter:

Gary Dean

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To whom it may concern: The mail in voting has been rife with government controlled fraud, this is a fact, and it has been proven. It is time to end this fraud and return the vote back to the people of Oregon. Not the illegals that are cluttering the vote rolls. I can see where the Liberal controlled Legislation would not want to allow that as it is the Liberals that control the vote without any honest oversight. As a retired programmer, I can testify that the vote computer systems IS NOT SECURE by any means, again this has been proven many times over. We the people no longer allow actions without representation, we no longer want gerrymandering, we no longer want foreigners to vote in Oregon that always vote for the best of the foreigner (meaning supporting those that gives them our labor and our hard work).

I am 3rd generation Oregonian retired and I and my wife cannot afford any more of your unconstitutional taxation... We used to be a wonderful family oriented state until we lost honest voting. Now you have destroyed Oregon and it is time that we the people have it back. If this does not pass, I am confident that Attorney General Pam Bondi will take action because this is in fact supporting Federal Law.
