

Submitter:

Nathan Levin-Greenhaw

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

No one wants this. Vote-by-mail has been working flawlessly since its inception. When things are working we don't need to change them. What the voters want is more freedoms and rights, not less. This is a clear attempt to remove freedoms from the population of Oregon and an attack on democracy as a whole. Any bill propose should be adding opportunities for the people, not taking them away. Why are we wasting our time and money even considering something so silly?
