We need to keep mail in voting. It is much easier and safer to vote in your home. ESP for people with disabilities the older generation those unable to take time off of work or they will lose their job then end up homeless on the street addicted to fentanyl. and those unable to find a ride to the polling place -they will have to hitch hike which is unsafe and could end up dead on the side of the road - just so they could cast a ballot. Just think about these scenarios . Do you want to be responsible for these situations?
