SB210

Is it ignorance or actual contempt for the voters of Oregon that you would make such a move to strip away access to the most secure and safe voting systems we currently have? Your deeply selfish and unpopular politics can only be passed if the people aren't allowed to have a say. You would stifle freedoms and deny access to this privilege and right any way you can. Your argument that mail voting is abused has no evidence and never will. Just like your policies and ideals, they are empty promises and lies.
