Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

If in person voting occurred over a period of a week and included hours that accommodate working people then I would be less opposed to this idea, but it's still a bad idea. Mail in voting is inclusive and aspires to a world where voting is a little easier and our representatives are accountable to more citizens, not just the richest ones.. More hoops means less voters and the sponsoring legislator knows this.
