

Submitter:

Brittany Chin

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill is only meant to disenfranchise voters and make the act of exercising our right more difficult. There is no evidence that a measure such as this is necessary. Our current system allows people to take the time to educate themselves and vote in an environment they are comfortable in. Forcing people to vote in person will only serve to reduce the number of people being heard and therefore being represented.
