SB210

This is ridiculous. Mail in voting is secure and convenient. I grew up in Oregon and I've voted in every election since 2004 by mail. Nobody wants to take a day off work and stand in a line where you can't even have a bottle of water like in Georgia. This is just an attempt to make it harder for people to vote because the assholes who wrote and sponsored this measure can't hold on to their overpaid jobs through their policies and positions.
