

Submitter: Hannah Froemming

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Our mail in voting system has worked well for decades. Voting should be made easy for voters, and nothing produces more informed votes than being able to research in the comfort of our homes as we fill out our ballots. We never have to contend with the weather, or a work schedule, or family commitments, or access to transportation, or far away polling locations. Keep mail in voting.
