Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I utilize mail in voting, as do very many citizens of Oregon, and do not want this option to be reduced or dismantled in any way. Mail in voting is a key component of a free and fair democracy within our state and nation as it supports the ability of more citizens to participate in the electoral process. It is a basic point of accessibility. Our elections and government work best when all legal voters have access to voting procedures, and sadly, there are so many barriers to free and fair voting when citizens are limited to attendance at limited polling stations on weekdays that are not conducive to the maintenance of mandatory jobs and commitments. Please maintain mail in voting as a primary election process in the state of Oregon.
