SB210

This bill is more republican voter suppression. Vote by mail has worked for decades in Oregon with very very few examples of abuse or fraud. There is NO credible evidence that election tampering due to vote by mail is happening. Republicans don't want the people to vote. They want us disenfranchised. Mandating in person voting only hurts working people & low income people and prevents them from having their voices heard. Our democracy is in a deep crisis and these state based measures will only deepen the disaster that is happening at the federal level. Our rights to free speech, free press and free and fair elections are under attack by right wing fascists who don't want a true representative democracy. They will lie and say they want elections to be honest and to prevent fraud (that they will not produce any evidence that it is happening) and wrap themselves in the American flag while trampling our constitution, our freedoms and our right to vote. This proposal is no different and if it passes, it's one step closer to the authoritarian dictatorship the right actually wants.
