On Behalf Of:	Concerned Citizen
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB210

Dear Committee,

No on SB210.

This is another targeted bill presented by Senator Smith.

The big leader said "jump" and they are all jumping...

Why create an electoral problem where there is none?

Why increase the cost of holding an election when budgets are already strained?

Why mess with one of the best citizen participation rates for elections in the country?

Mail in voting has worked for decades and will continue to work for decades.

The gaslighting and sky is falling rhetoric be damned.

Kill SB 210!

Thank you.

Bob Morrow
