Measure, Appointment or Topic:

SB210

This measure would come at the cost of thousands of Oregonians' ability to participate in fair elections. In particular this measure makes no reference to closing down every business during voting hours on election day, meaning citizens would have to choose between their job and their vote- because no business would bother to close. This measure also makes no reference to those who cannot physically make it to a polling place- this measure does not even create polling places for these votes to be cast. This is a blatant attack on the rights of Oregonians purely for the benefit of the elite, and I request that the sponsors of this bill be censured for their anti-American, anti-Oregonian attacks on the people of this state and country.
