SB1046

I strongly oppose this bill. This directs the State Department of Fish and Wildlife to provide the Secretary of State with electronic records containing the legal name, age, residence and citizenship information, and electronic signature of each person who may qualify as an elector as prescribed by the secretary by rule. Directs the secretary to register as an elector each nonregistered person whose electronic records the secretary receives from the Department of Fish and Wildlife and who is qualified to vote. This bill incorporates ANOTHER agency to register voters. Visitors may use friend's addresses to get in-state rates for fishing and hunting tags, and to have that qualify them to automatic voter registration is careless! We are already dealing with thousands of illegals. This bill will add more reason for voters to not trust our voting process. Dump this bill! I strongly oppose SB1046.
