SB210

As Oregonian, I fully support SB 210 in its fullest context. We have seen this past summer in August that fraud is easy enough from those from other countries can just simply sign up to vote and prove nothing to being a citizen and resident of Oregon when partial audit was conducted finding roughly 1600+ fraudulent voters in the first 100,000 voters. This is enough to turn an election by outsiders not residing in Oregon. Oregon voting is for Oregonians only, not illegals, undocumented, or those from another country.

Oregon only. Anyone can get an ID easy enough. Anyone with a Driver's License has an ID, and easily available by simple residential proof and citizenship, can just as easily vote.

I urge SB 210 to pass.
