

Submitter:

Scott Windsor

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This is horrible step back away from one of the most progressive and accessible forms of democracy we have. We've had safe, verifiable elections. Any instances of fraud have been easily found and purged. In-person would reduce access and not make anything safer. This is a weak attempt at trying to suppress the will of the people.
