Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I lived in a State that voted in person many years ago. I had absolutely no problem getting to the polls to vote every election. The only time I couldn't was when my husband was in the military and I requested an absentee ballot. The claim that people can't get there to vote or don't have an ID, is an excuse. For the preservation of our elections, we have to go back to in person voting with an ID. Thank you..
