

Submitter: Monique Bochsler

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3884

My name is Monique Bochsler,

I am writing in opposition to HB 3884. The word study keeps being thrown around. But in reality it's just throwing money I around. Oregonians money that we can afford.

This would have a study on law abiding citizens. Why in the world would we need To add more laws and restriction on law abiding citizens. We should be making bills on the ones that don't follow the law

I strongly urge committee members to vote no
