

Submitter: Monique Bochsler
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB2641

Good morning,

I'm writing in opposition to this bill. We should always be held to our past mistakes. This bill suggest we should ignore past . But that is not how the real world works. We can not simply erase bad behavior. We use history if people to determine their risk to society. If we have no scale of that, then you will fine people will just not care. And begin living so.

I strongly urge you a no to this bill

Monique Bochsler
